Thank you ravenmolehil for this post. It covered a bit.

Every time I hear that Christians go to China to adopt a baby girl from there I rejoice.

Have you seen the 'behind the scenes' shots of most of these Orphanages there ?

Why is nothing done after this many years of RED China's cruelty to it's citizens ?

I will never never understand why we are so busy about everything else but do nothing about China's human-rights polici es, except let to give have all of our money and industries.

What nations have we 'resourced' most of our jobs to ? What are their human-right policies ?

I heard Finally, on the BBC last nite, someone finally said that all our out-sourcing is finally falling back on our economy. That 3 million jobs have been lost here just in the last 7 years.

And to who ? or what systems ?

Where is the crying out for the innocent and the innocent blood ?

Korea paid a debt they owed Russia with 30,000 humans as payment.

What is keeping "us" back from speaking out on these issues brother ?

This issue is leading into many heinous forms of human slave trade etc.
