

**Miracles that follow the plow :: Oh my heart aches :(****Oh my heart aches :(- posted by Telestai (), on: 2007/8/29 21:46**

I would like to request prayer for myself and for my fiancée. Please pray for healing, for comfort, for revival, for peace, for growth, for us to move forward. And for anything else that the Spirit leads you to pray about. She told me today that she has cheated twice outside of our relationship. I would really appreciate it. God bless.

Thank you -
Nick & Jamie

I pray that the Lord speak to both of you during this sad time. I couldn't help but notice a possible contradiction in your request though...

Quote:

-----Please pray...for us to move forward.

Brother, consider that in praying you are being still, waiting, and listening. Perhaps moving in any direction should be suspended from your list until you both hear from the Lord.

When we are hurting so bad we wisely come to the Lord without delay, but so often we also leave without delay and set about to fix things ourselves. Not saying this is true in your case...but when in doubt, or under a cloud of pain and confusion, it is best to wait until the haze clears to see and hear more clearly, by the leading of the Lord, the way to proceed.

I'm sure you know this...my reminder is just a gentle confirmation.

I will lift both of you up tonight. You are both precious to the Lord.

THANKS SO MUCH FOR YOUR PRAYERS! We both are feeling a lot better. GLORY TO GOD! We've already made huge progress through seeking the Lord and staying in His word. The coolest thing is that I'm learning sooooo much. Please continue to pray for us :)

Thanks again,
Nick & Jamie
