Saints,

I am excited to announce that www.godsipod.com is the main "content" distributor for the podcasts of the upcoming revival conference. This is a great partnership and [godsipod.com](http://www.godsipod.com) is one of the main christian podcast delivery websites on the internet run by Israel Anderson. Be sure and check out his new venture www.godsiphone.com which displays the bible on the iphone.

One thing I forgot to mention, to subscribe simply go to www.godsipod.com and follow the simple instructions. There is one file in the podcast right now and after the event all the media will be added to the podcast, so if you are subscribed ahead of time then you will be "delivered" the content freely when it's available.
