G'day All!

In late 2006, I had the privilege to work with Living Waters New Zealand in Christchurch. While we were out in Cathedral Square we noticed a couple of Mormon missionaries, so we decided to stop them and have a chat about what they believe, and the Gospel.

May these videos be a helpful aide in exposing that the Mormon church is not a Christian church, but rather it is a cult that is opposed to the Gospel of our Lord Jesus Christ.

Watchman's Fellowship is a group that researches cults, religious groups to educate the Christian community of movements that teach heresy. Here is a link to that site that is brief and to the point. They also sell a lot of lit dealing with LDS.

Thought this might help.

Stephen Hamilton has a few sermons exposing Mormonism as well. Greg has them here on Sermon Index. In fact, I think there was a post about it a few weeks back.
