Medicines

(John Newton)

"I know, O Lord, that in faithfulness You
have afflicted me." Psalm 119:75

Trials are medicines which our great and
wise Physician prescribes because we need
them. He proportions the frequency and
weight of them to what our case requires.
Let us trust in His skill, and thank Him for
His prescription.

"It was good for me to be afflicted so that I
could learn Your statutes." Psalm 119:71
