I am looking for some biblically sound evangelistic movies in SPANISH. If anybody has any suggestions, please share?

Also, movies exposing the errors of Catholicism and JW's are wanted (in spanish).

I already have edited versions of the Jesus Film, Light of the World, and Messages from Heaven. Any other suggestions ?

Here is one I have ran across. I haven't seen it in English or Spanish though. So, I can't really comment on the content in it.

Christian Answers has a spanish version of their site that has videos on it.

Then endorse Ray Comfort, Answers in Genesis, and some other ministries that might be known. If they endorse Ray, then I would guess their Gospel presentations would probably deal with sin and hell.

I really don't know much about that ministry though...
