Saints,

Brother Zac Poonen shared this word in a church in PA, USA on his recent trip a few weeks ago. May this message encourage you in these times of economic turmoil and shaking. Zac Poonen shares during a time of recession that God is allowing this to test and see if we are serving mammon as a God. Why should it disturb us if Mammon is shaking? We should be content that the kingdom of God principles are the same in our day. Brother Zac talks about a Babylonian church system that does not serve Christ. A very important message in our times.
