Praise God, I will try and get more of the older ones in better format as above. I am trying to work on an FAQ section and misc information about the ministry, I might put up a page for wallpapers, etc. Great its being used.

Is having wallpapers such as this one something you would want? let me know if this is a useful feature and I will try and craft a few more of them.

Always a welcome change to the Desktop, Greg. Would love to see some more for use at home. (ie. Hudson Taylor, Amy Carmichael, Tozer, Ravenhill, etc.)

Will you keep mixing up the seasons?
If that's the case, a wonderful idea! :-P

Love 'em brother, had the gentleman praying on his chair up for a long time. Know you have some treasures in that chest, keep 'em coming...
