Hello,

I thought some of you would be interested in this article. It is from mercola.com, a natural health newsletter.

(<http://articles.mercola.com/sites/articles/archive/2009/07/04/Warning-Swine-Flu-Vaccine-Coming-Soon.aspx>) Warning: Swine Flu Vaccine Coming Soon

At the end of this article in the comments section is a link to a video about "don't take the vaccine." (I know you don't like youtube video's posted on here, is why I didn't post it.)

A quote from the video: "If you don't ever want to get the swine flu then don't get the swine flu vaccine." (1.40 seconds)

God bless and I hope it helps anyone who is interested.

PS: You might have to type in your email address to see the article. When you do, you will receive his newsletter and that is all. It's very informative!
