wow.

i have not been able to see their meetings before this is great.

i guess they are technology amish buffs jk.

there is a purity and clarity of scriptural truth in the songs.

i am surprised there are so many people in light of the fact that they are so conservative.

I am on the West Coast, just returned from worship with my fellowship. The video began to play and then stopped (Video of Esh on Fatherhood). The live conference phone listen was only playing music .

Is this time delayed? I see they have posted, on the other site listed, earlier messages.

Is there a schedule. Next meeting is when?
