I am wondering why the Bill Mcleod "Watching Joseph Die" Sermon is not available in video form.

Thanks,

I guess that since IBLP hosted the conference at their complex in Indy... and video taped the revival conference... they own the rights to the messages???

It will cost you \$13.00 to watch the message.

for \$89 you can watch them all...

I probably don't need these to watch, but they were pretty good, but id prefer free so I can hand them out to freinds and family...

Brothers and sisters,

we are offering all the videos for free. They are still helping get them up on the internet for us. So they will be all for free download and free viewing on youtube.

the DVD option is only a service for you that have asked every single conference and finally God has provided this for us .

No, the messages are not copyright and can be freely distributed in any form.
