Saints,

This is a great opportunity for ministries to spread their message out to "many" using this technology.
(<http://www.sermon.net>) www.sermon.net has secured a very cheap price for this amazing service. Do read below:

New Partnership with TubeMogul

We are extremely excited about this announcement! Over the past two months we have worked out a great partnership for you with TubeMogul. If you are not familiar with TubeMogul here is a quick summary.

TubeMogul is a service that provides a single point for deploying uploads to the top video sharing sites, and powerful analytics on who, what, and how videos are being viewed. TubeMogul tracks rich, standardized analytics far beyond "views," including per-second audience dropoff, audience geography and much more.

A Sermon Network partnership with TubeMogul provides you with the ability to upload your video once through the Sermon Studio and instantly your video will be published to all of the major video networks such as YouTube, Vimeo, Blip.tv, MySpace, and many more.

Now here is what makes this even better. If you were to go to TubeMogul directly and sign up for this service the cost is \$500/mo. For large organizations and publishers this is a great service and worth the investment.

The cost for each ministry on the Sermon Network is only \$30 a month! (insert applause here)

Important: For us to be able to activate the TubeMogul service within the studio we need to start with a minimum of 100 churches that want to add this service.

If you are interested and see the TubeMogul service as a benefit to your ministry please let us know.
