yes this one sermon is of paticular importance to listen to. Its addressing much of the false gospel being given out in america and across the world I have just finished listening to it! wow.

It's a great sermon by Brother Dave before he left for Europe. I would suggest listening to the message on September 19 entitled "Holy Spirit: Come Back to Your Church" which is a powerful word as well.

Here's a link to the sermon: <http://www.timeforrenewal.com/wmedia/040919-S1-DWI.asx>.

"In Edgar Allens Poe's classic story 'The Masque of Red Death,' an uninvited guest slips into a costume ball, his mask in place, and mingles with the crowd until the clock strikes midnight. Only then do the horrified onlookers realize he's infected them with a deadly plague."

This above quote really speaks true of whats happening in the church were men have crept in unawares coming as angels of light to give a gospel that really is not the gospel but a counterfiet. And when we realize it in some cases it can be too late.

My MAC will not play the asf file. I can play regular windows media, but this one will not come up. Anyone have any ideas on a different file format or how it can be made into an mp3?

God Bless,

-Robert

Robert,

the round-about way is right-click and save link as...once it's saved, then open the .asf file with notepad and it contains the audio link.

another way would be to right-click on the link and copy the link location -- then substitute .wma for .asf at the end of the URL. That should work if it is the same file that is being referenced.

"Guarding The Sheep".

Just the title alone is a cry of the Lord, in and by itself.

Praise God snowrosies, that you bumped this thread, 'cause I hadn't seen it yet.

Thank you.
