Please pray for my son, J. He is really miserable sore throat, fever, and vomiting. He is only eleven and he gets frightened still when he feels so sick. Please pray for healing and just for us both to trust in the Lord in this. Thank you

God bless  
Maryjane

Father,  
Please touch Maryjanes Son, and give her Your Strengt to care for him.  
Heal him, Father, In Jesus Name. Is.53:5

Greetings

Thank you to everyone for your prayers. I did end up taking my son to the doctor he could not keep anything down and h is fever was so high. Turns out he has a very nasty stomach virus and to compound things a sinus infection. He is on me dicine, a very bland diet, and the fever is now coming down to normal again. He has been sleeping a lot so that is good f or his body. I tell you he was so pale and had such dark circles under his eyes that I struggled not to give in to fear. God is so faithful though and I know in my heart that He has been with me cause I have just known His presence and peace while I have been taking care of my boy:)

Thank you all again, it means so much to me and I know it made him feel better to when I told him that he need not be af raid because all of you here have been praying for him:)

God bless you all  
Maryjane

My son is running a very high fever again and can not keep anything down. He has been very sick and things seem to be going bad again. Please pray for him.

God bless
