

SermonIndex Support :: Reftagger Not Working**Reftagger Not Working - posted by flameoffire (), on: 2010/6/8 9:44**

I don't want to be a pest, but Reftagger seems to be down. It's not just this site, but everywhere I see Reftagger used. It seemed to have started a week or two ago. Is there a solution? I use Reftagger and I was wondering if new code needed to be installed or something like that. Thanks. Blessings and Prayers.

It is working for me . . .

Re: - posted by flameoffire (), on: 2010/6/8 13:08

woops, it was my browser. Silly google chrome. I apologize for the stupidity. Blessings and apologies.

No problem. I am glad that you got it working.

God bless you also.
