Dear brothers,

Greetings. This past several months have been hectic with the move of Oasis etc. That is our excuse for our slowness in getting the word out clearly about the Oasis conference for men in less than a month. Many men were blessed at the last conference. This year we have the wonderful privilege to have Alex Strauch as our main speaker. He has written several books on spiritual leadership, especially on the need of love and humility in leadership. His book, Agape Leadership, is one of my favorites. This year's focus will be on loving and encouraging one another. Alex has much experience in leading saints to grow in these graces. Our time together should be a great blessing. The conference is open to all men and their sons--young and old. Attached is the brochure with more information. Call, email or stop by Oasis with any questions. Feel free to invite friends. One unbeliever came to the last conference. The words and kindness he received so blessed him that he became a Christian the next week.

In Christ,
 Brad Scheelke
