Tell me are we living like Abraham? The world needs to see us living by faith. The darker the hour the brighter we need to shine. I have been preaching through Hebrews for the last two years and just wondering what my brothers in Christ think?

Be an testimony of truth and saving grace. Be a witness of GOD'S love and GOD'S Spirit within. Follow the example of Christ in profession of faith, in compassion and in humility.

The world does not need another intellectual reason to follow Christ.

The world does not need another fancy sermon to show them the way.

The world does not need bigger church buildings that can hold more people.

The world needs to see true faith in us because faith is the substance of things hoped for, and it is the evidence of things not seen. Nothing speaks Jesus more clearly than Jesus in us by faith, and that faith which works by love.
