At some point on here I saw a post that had an index of topics discussed in the forums. It wasn't a complete list; it was just an index of major topics. Of course, now I can't find it.

What I'm looking for is a discussion of the diety of Jesus. I don't want to start a brand-new discussion when there's a good chance it's already been brought up. If someone could point me in the right direction or let me know if you recommend starting a new thread.

Thanks so much!
