Help with finding new sermons - posted by jamccor (), on: 2010/8/26 10:55

Wondering if anybody can help me with finding new sermons. I was looking at the recently added sermons page and noticed that Leonard Ravenhill now has 390 sermons. I know that as of yesterday or a few days ago, it only had 376 sermons. In the recently added list I see 9 of the sermons, but when I go into his audio section, I don't know how to find the rest of the new ones? Can somebody point me in the right direction?

GOD Bless

John

If you click on Audio Sermons and then scroll down, it shows all the new additions and there are a lot of newly added Ravenhill sermons but I wish the list was longer so we could know.

That is something that will have to be checked out daily to see.

Hope that helped! God bless you,

Lisa
