

## Miracles that follow the plow :: Please Pray: Best Friend's Wife

### **Please Pray: Best Friend's Wife - posted by Lotis (), on: 2011/2/26 8:12**

Friends please pray for my best friend and his wife Gordie and Regina, she is at the hospital now and will be for 24hrs at least; her body is trying to go into early labor. She has nine more weeks before the baby is due. Just pray the Lord would calm her body and keep the baby from coming too early. Also just pray that they would have peace as I am quite sure they are both worried.

Thanks for all you prayers saints!

Lord Jesus, You ordained the days of this little one before the foundations of the world. Please calm this mother's body and allow this baby more weeks safe in its mother's womb until Your perfect time. Also, Father, please give the parents that peace that passes all understanding, as only You can. We ask also that You give the doctors Your perfect wisdom. We ask this in the name of Jesus.....

YES I will surely pray for Gordie, Regina and the baby!

In His love,  
Browny

I will be praying as well. Show Yourself in this situation O Lord. Let their faith increase and their love for you grow. Keep Your hand on this little one Lord and show your love and mercy to the parents. Giving You all the glory!

Amen and Amen
