Iran Leaders: The Coming is Upon Us – Israel Shall be Destroyed! (Watch the Video) - posted by sermonindex (), on: 2

Several months ago I was informed by my contacts in the Iranian Revolutionary Guard that the Basij had started a project that had the approval of the Iranian Supreme Leader Ayatollah Ali Khamenei and the Iranian President Mahmoud Ahmadinejad. The purpose of the project was to inform Muslims across the globe of the immediate coming of the last Islamic messiah. The Iranian leaders, now more than ever, feel that all the stars are aligned for such event.

Ever since the Iranian Revolution of 1979, the Islamic rulers of Iran have declared themselves representatives of God on Earth, believing their mission is to pave the way for the reappearance of the last messiah, the Shiites 12th Imam Mahdi.

Their belief is based on the centuries old Hadith by Prophet Mohammad and his descendants, who have provided clear guidance as to the timing of The Coming.

According to the Hadith in the age of The Coming, a revolution takes place in Iran. This is a key sign indicating that the reappearance is near and serves as the initial preparation in the worldwide movement for The Coming of the last messiah. Based on this belief, the leaders of Iran see it as their duty to prepare the ground for The Coming. One of the most important events to securing the reappearance of the last Messiah, as called for in the Hadith, is the annihilation of Israel and conquering Beitol Moghadas (Jerusalem). They state with conviction that Islam will soon conquer the world and all infidels will be destroyed.

The pursuit of nuclear bombs by the radicals ruling Iran is directly connected to this belief, as war, chaos, and lawlessness must engulf the world to pave the way for Imam Mahdi's reappearance.

This movie has been produced in Iran by an organization called "Conductors of The Coming" in collaboration with the Iranian president's office and the Basij (Iranian paramilitary force). Also reports indicate that Esfandiar Rahim Mashaei, President Ahmadinejad's top adviser and chief of staff, was directly involved with this project. The movie was completed a few months ago and recently screened for the high clerics by the Iranian president's office with one of its high ranking official analyzing it.

Mashaei reflects the Iranian leaders' belief very clearly:

Therefore let us shout out loud that The Coming is soon and that evil should be fearful. We live with these thoughts every day and our lives are filled with The Coming of the last Imam. That human will reappear and fill the world with justice and establish his promised governance on earth. The very world has witnessed too much bloodshed of the innocent for others to build their palaces. The very world is filled with shouts for justice. The innocent and the oppressed are losing their lives to world powers. It is in this very world where the oppressors rule and this world that Allah will command the last Imam to appear and forever put an end to injustice. At that time the world will belong to the righteous.

Currently this movie is being distributed throughout the Basij and Revolutionary Guards' bases. The producers are in the middle of translating it into Arabic with the purpose of mass distribution throughout the Middle East. Their intention is to incite further uprisings with the hopes of motivating Arabs to overthrow U.S. backed governments with the final goal of the annihilation of Israel and Allah's governance of the world!

It sure does seem like the earth is rocking and reeling and things could go south even over night, possibly in our own Country as well.

I agree, the antiChrist is right at the door waiting to "bring peace" at his revealing.

Our hold on this world and the things of this world should be very very loose by now.
Storing up treasures in Heaven instead.

Did anyone else notice Salron from Lord of the Rings at 24:12? I thought that was a kind of odd occurrence but if their goal is to stir fear and show how evil the antichrist will be, Salron is a decent choice I guess.
