Adding the Live Simulcast Event On the Fear Of The Lord To Your Site..! - posted by sermonindex (), on: 2011/6/18 16:1

Saints,

Here is a tremendous opportunity to help see God send genuine revival to North America and the world. Or at least see the hearts of men prepared.

I have a vision that if 100+ websites embedded the registration page on a unique page on their websites or blogs and then promoted it from their front pages we would see many more come to know about this event: <https://www.sermonindex.net/live/>

If you felt led could you:

1. Take a look at the coding on this page: <https://www.sermonindex.net/live/> and copy the embed iframe code to a unique page on your website.
2. link to that page from your home pages on your site branded with your ads etc and site nav.

This would be a huge blessing and help. Let us know if you do this and send us the link or put it up here. Thank you for using your websites for God's glory.

I am even praying that imagine if 50-100 websites like ours did this how much this would promote this event without "money" and bring such a blessing to the American Churches! Pray about getting behind this dear brothers and sisters.

I am bringing up this opportunity for those that missed this.

Re: , on: 2011/6/22 0:56

i hope more get involved with this conference it really should be great and a blessing and it is free so many should be able to get involved.

I am not sure what was meant by this,

Quote:
 -----1. Take a look at the coding on this page: <https://www.sermonindex.net/live/> and copy the embed iframe code to a unique page on your website.

But this is what I did.

Sister,

That looks tremendous. And I love the new theme and header design for the blog website! keep up the good work.
