Brothers and Sisters,

I am looking for someone that would feel led to take over this ministry of the iphone/ipad app for sermonindex. To help add more speakers and sermons to the app. And maintain it. Currently there are 1,614 people who have downloaded the app to their devices and that is increasing about 20+ a day!

We would want someone to take over the cost of \$10 a month to run it with the www.thechurchapp.org and also add more messages to the app.

Please let me know if you are interested in doing this ministry. It would be fruitful even more if someone did this.

here is the link to download the app:
