"The drought and famine in the horn of Africa has killed more than 29,000 children under the age of 5 in the last 90 days in southern Somalia alone, according to U.S. estimates. The U.N. says 640,000 Somali children are acutely malnourished, suggesting the death toll of small children will rise. "

"At risk of starvation are about 3.6 million people in Somalia and 12 million people across the Horn of Africa, including in Ethiopia and Kenya, the United Nations says. "
