Dear Saints,

this is a timely and cutting message from one of the major prophetic voices here in Britain. David explains in very plausible terms how the riots came about. He talks about the heart of man and God's character. He elaborates on God's judgment on the nation by withdrawing restraining forces and giving people over to their own vices. He shows us a God whose anger can boil up in a moment. He holds the church to account for preaching a very diluted and distorted message to the world. Last not least he gives us hope that God is merciful and concludes with a gospel invitation.
