**A good example of a web design brief please? - posted by smith123, on: 2011/9/8 5:28**

I need to submit a web design brief to web design agencies. I've never done a 'web design brief' before. Does anyone kindly have any examples to link to? Know of any good web design agencies I should submit the brief to? Thanks.

This website really isn't for web design but I am sure there are other forums that would meet your needs.
