In about 25 days my family and I will have to pack-up and move to a nearby city for my wife will be getting a promotion and we all know how challenging at time this could be. I just submitted an application for a 3 br/ 2 bath apartment that fits our budget and is in an ideal location for ease of travel to and from my wife's office. Please pray that our apartment application is in favor with the landlady and that it will be approved. Your prayers would be really appreciated as our time to get things lined out is coming to an end. Thanks.
