Please pray for Pakistan, which has been hit by an unusually serious wave of dengue fever.

One Christian pastor said that when he visited a hospital in Lahore, it seemed like Judgment Day. There were people lying everywhere...

Pray that God would use this opportunity to reveal the power of Jesus' name. The Christians are a minority in Pakistan, and now that the Muslims are desperate, it is a perfect time for God to grant signs and wonders to bear witness to the Word of His grace, as Christians proclaim the Gospel of Jesus Christ (Acts 14:3). Pray that this would turn out for God's glory.

In Christ Jesus,
Renoncer

Thank you everyone for your prayers.

A pastor from Pakistan has already testified that his own brother has been miraculously healed. His wife's sister and her husband (especially serious) are also badly affected.

What a battle! Glory to God!

In Christ,

Bless you Brother. I do believe 'that GOD so loves the world' and that He has given His Saints His heart to care for All the world, to fast and pray for all men everywhere.

This is one of a few websites to keep for that burden - to pray the heart of our Precious Christ -

Give us Your Eyes LORD. Give us Your Heart and Mind - as our Savior's ... in Jesus' Name.

Will join with others to pray as well. God is so faithful to hear the prayers of His children. Glory to God!
