German Parliament Report:German anti-Semitism 'deep-rooted' in society - posted by staff, on: 2012/1/23 19:14

Hi All,

Germany is the heart of Europe and anti semitism is at the heart of Germany,not just Germany either.The Spirit that destroyed Jews and also least we forget destroyed Germany as well is still active in Europe.Below is an web address of a report from a German expert group.To give credit where it is due it is good that the German Parliament instigated a study of the problem and hopefully that will bring forth some action if action is possible.
