It is true. Pepsi is not the only company doing this.

To say I oppose this is a gross understatement. A list if all the companies is available on-line. A google search should be ing it up.

We purchase a minimum of prepared foods and have checked them all against that list but that is no safeguard, they can always change policies and begin doing this abomination.

Disgusting to think that my daily prayer for forgiveness of my sins may now have to include this sin! God have mercy on us.

Please post the link to the companies. May the Lord forgive us.

There is such a thing as abominations that the Lord will no longer tolerate. I believe the spirit of Satanic Sodom had filled the Old World, and the Lord raised up Noah, and the entire population of the Earth was slain. Sodom came later, and the Lord preempted it's spreading, and annihilated it.

To consider this article as real is mind-bending with it's implications. We encourage the slaughter of our own children to use their parts to enhance our food, cosmetics, and medicines.

It cannot be long until awful wrath will come. As you read the Scriptures, we see that Innocent Blood is always avenged.

Leonard Ravenhill wrote a book entitled; SODOM HAD NO BIBLE. We once honored Jesus more than any other Nation..in a general sense...and today we oppose God with raised fist, murder and the grossest sin imaginable, while wiping our mouth and declaring how great we are.

Pray for the remnant, and give yourself to Jesus as His possession, for wrath is on it's way.

"For as a snare shall it come on all them that dwell on the face of the whole earth.

"Watch ye therefore, and pray always, that ye may be accounted worthy to escape all these things that shall come to pass, and to stand before the Son of man."

still searching for that link, found this though - posted by White_Stone (), on: 2012/1/26 11:56

State Bill Outlaws Use Of Fetuses In Food Industry

A bill introduced in the Oklahoma Legislature has some folks scratching their heads, as it prohibits "the manufacture or sale of food or products which use aborted human fetuses."
