My dad is going to be going in for a biopsy on his prostate because they found a tumor, the biopsy will let us know if its cancerous or not. Pray the Lord will be done and that Christ be glorified :)

Done deal, please keep us updated!

I pray that God will give you and your family peace as well, my wife just had a brain MRI last week and the devil tried everything to take our peace. But the peace of the Lord was greater, and the lies of the enemy were not true, the MRI came back normal! I pray the same peace for you and your family!

God bless!
