Saints,

I found this ministry interesting. The importance of the Jewish people in the end-times is beyond our imagination. God is going to be doing a great work in these end-times and may we be in the fulness of what God expects for His church. Scott Volk has been an encouragement to me and I encourage you to visit his ministry website, he is now accepting speaking invitations around the world. He is spirit-filled and a wonderful brother.

It was in early December of 2006, as we brought our first tour group to an underprivileged children's home in Tiberias, Israel, when my heart would be radically touched and my life would be unalterably affected. As we were distributing Hanukkah gifts to these beautiful poor children (some of whom didn't know when their next hot meal would be served), I heard the still small voice of the Lord whisper a familiar passage of scripture to me, "Inasmuch as you've done it to one of the least of these my brothers, you've done it to me." It was then and there that I said, "Hineni" to the Lord, making myself totally available to Him where Israel was concerned and trusting that He'd unfold what it was that I should do next. Since that momentous day, the Lord has graciously and gradually been revealing to me that there is a clear and distinct call on my life where Israel is concerned. Although this was the furthest thing from my mind before that day, it's something that I'm joyfully embracing now as the Lord continues to unfold His plan for my life. That plan includes the following: (1) leading annual trips to Israel (2) financially supporting believers in the Land (both Arab and Jew) (3) speaking at local churches, congregations, and conferences and (4) raising awareness, wherever we go, of the "one new man" message.

Thanks Greg. Didn't Scott Volk work with Art Katz for a period? I think he cowrote The Spirit of Truth. :)

Yes Scott has known Katz for a good time and that book Spirit of Truth is very powerful, a recommended read. It can be ordered here: http://artkatzministries.org/online_bookstore/books/

It was Paul Volk that co-wrote The Spirit of Truth with Art.

Scott's mother stayed at Ben Israel, but Scott moved on to school, mainly under Michael Brown.
