

Revivals And Church History :: A flicker of hope for revival in the USA ... a reminder from the past...

A flicker of hope for revival in the USA ... a reminder from the past... - posted by Lordoitagain (), on: 2012/10/2 23:43

I don't know very much about Dr. Michael Youssef, but in this message, he gives a good fresh reminder of the fact that r evival CAN happen, even in the worst of circumstances, as it has in this country in times past.

I must confess that with all that has been happening I have been bracing for the crash ... with very little hope of revival h appening again in this country.

Wouldn't it be SO refreshing if prayer meetings started happening all over the place again like they did in the USA in the mid 1800s. In this message he reminds us of that time. May the Lord do it again as He has in the past.

Hearing it from someone who was born in a tyrant nation and migrated here gave it a little different perspective.
