It's actually a live emergency broadcast that he will be sharing from a safe place where he will exhort believers how to respond to this storm in their area and serve others:

It will be live in 30 minutes.

Just listened to it. Very encouraging!

It was recorded and available for replay now - posted by mackaymarsh, on: 2012/10/29 21:16

Just want to remind everyone it was recorded and available for replay. It is just a few minutes long and the last part truly spoke to my heart as he brought life to the Scriptures through the current situation of the storm.

It is a great encouragement for the coming days.

May God bless you all,
