**One of the many reasons that so many Christians are so concerned about government issues in the USA - posted by L**

For those who don't live in the United States, this little video should help you to understand why so many Christians are SO upset about the way things are going in our government.

We live with this situation on a daily basis and see it all the time. We go to the grocery store and see thousands of tax dollars being piled high in 2 or 3 grocery buggies at a time and spent on very healthy people that are sitting at home reveling in sin and not working. I believe strongly in helping poor people, but what is happening with our tax dollars is not helping, but destroying! For those who don't know it, we are HEAVILY taxed here in the USA. We'd much rather be sending that money to missionaries. We are well aware that there is an agenda to produce more couch potatoes (free loaders... leaches) so that eventually there can be a totalitarian ruling government with dependent subjects. We see it on a daily basis.

In this video the young man unashamedly expresses the way that millions in this country are living on a daily basis. The work ethic and personal responsibility were some of the many Christian values that were stripped from us, and soon there will be a collapse because of it.

after all the brouhaha on this forum about politics and a very clear admonition from Greg, you post this?

please tell me how a segment from Judge Judy is germane to this Most Holy Faith, Messiah Jesus and Revival?...and is respectful of leadership on this forum?

Your nations taxation is among the lowest taxed in the world.

Among 28 of the world's most advanced countries, the U.S. ranks 26th in tax revenues as a percentage of GDP, which sits at 24% according to the latest available data from the Organisation for Economic Co-operation and Development OECD (2010).

Thank you brethren. Also the focus of the forums is not secular politics but Scripture and discussing Church history and its elements.
