Saints,

As some of you have seen we have been involved with many brethren who are gathering in small gatherings under the Headship of Jesus Christ. These meetings in some cases are with brethren from all different denominational backgrounds in local areas. For brethren to be involved in these meetings does not mean they even have to leave going to their larger church meeting. The principles book is the basis of Unity: <https://www.sermonindex.net/fellowships/principlesbook.php> where it is shown that Jesus Christ must be Head of the Church and every local small gathering of believers.

If you are looking for fellowship or already meet in a small mid-week meeting with saints or committed house church then you could consider to be added to the fellowship finder:

It is our conviction that for saints to start to network together now is very important for the strengthening of the body of Christ, sharing of the Gospel and a help to prepare for coming persecution.
