Dear Saints,

After the communist takeover in Russia, party officials would journey to rural villages. They would expound the virtues of communism and the workers paradise. In one such village a party official ranted on for hours about the virtues of Marxism. The village people were required to listen to his presentation. After several hours the official looked at the village priest and said "you have 5 minutes to refute me". The priest said "I need only 5 seconds". The priest raised his arms and said "My brothers and sisters the Lord has risen"! The village people responded "Brother He has risen indeed"! It was said their cry drowned out the machine guns that were turned on the villagers.

I do not know if the above story is true. But I do know that it is true for the persecuted. To know that the Lord has risen silences the persecution of the devil against them. Brothers and sisters I invite you to join me tonight to pray to the Risen Lamb that He will strengthen His martyred church. Call details are below.
