

**Miracles that follow the plow :: Prayer for Lysa****Prayer for Lysa, on: 2014/7/6 8:20**

Dear SI Family,

Please uphold Lisa Rock in your prayers. She is a member of the forum and post under Lysa.

Lisa sent a txt indicating she was covered in hives and experiencing chills under her electric blanket. She indicated she was going to the hospital.

This sister has a ministry to incarcerated women sharing with them the love of Jesus. Perhaps this is an attack of the enemy.

But please do uphold her in your prayers. Will post as I get updates concerning our dear sister Lisa.

Blaine

Prayed

Re: Prayer for Lysa - posted by AbideinHim (), on: 2014/7/6 9:10

Blaine,

Thank you for letting us know. We will pray for our sister to be healed.

Mike

Re: , on: 2014/7/6 13:10

Just got a text from our sister. The hospital told her she had an allergic reaction to something. It seems like benadryl, antibiotics, and more important the prayers of the saints are bringing healing to Lisa.

Thank you for your prayers for our dear sister.

Blaine

Re: - posted by HeartSong, on: 2014/7/6 23:28

Please tell Lisa that wrapping herself in an electric blanket is equivalent to wrapping herself in power lines. Tell her to THROW IT AWAY - and anyone reading this, please do the same. One of the things that happen as a result of electromagnetic poisoning is that your immune system is compromised. One of the ways this first shows up is problems with our skin. Please tell her also that I will be holding her in prayer.

Good LORD, please awaken your people to these dangers.

Re: Prayer for Lysa - posted by Lysa (), on: 2014/7/7 8:29

Thank you all for your prayers! I sure needed them. When I got to the hospital my right hand was swollen twice it's size with a red streak going up my arm and the doctor said this was what granny would have called blood poisoning but it is the lymph nodes pulling out the infection to purge my system. And all the hives could've been something else or an allergic reaction to what happened on my hand.

Saturday night I thought I was dying and texted for prayer; and when I would wake up I would quote, "I shall not die but live and declare the works of the Lord!" The doctors gave me steroids and benadryl and antibiotics. I asked the Lord to help in these drugs because I haven't had antibiotics or steroids in years, the Lord is good and thank you for praying for me, I am grateful!!

God bless you all,
Lisa

Lysa,

We are glad to hear that you are doing better. Jesus is our great physician who forgives us of all of our iniquities, and heals us of all of our diseases.

Mike

Re: , on: 2014/7/8 10:42

Saints our dear sister is still in need of prayer. Lisa sent text indicating hives and swelling are starting again to break out in her body. Evidently the medication that was given her is ineffective.

Please lift her up as God brings her to memory.

praying

Re: - posted by ginnyrose (), on: 2014/7/8 16:33

Spider bite? In the south we have plenty of spiders that love to bite and do.

Anyhow, prayed for a recovery.

Re: - posted by HeartSong, on: 2014/7/9 0:06

Tell her to try activated charcoal. It can be used both internally and externally and is designed to draw toxins out of the body. A small amount can do amazing things.

It also works for spider bites. I had one that grew to 5" before I prayed, and then remembered to use the activated charcoal. Within 24 hours the swelling was gone - but it did take almost a week for the bite itself to quit itching and disappear.

Miracles that follow the plow :: Prayer for Lysa

Re: - posted by DEADn (), on: 2014/7/9 10:31

Yes, I have used activated charcoal. It does wonders. If you are feeling like an upset stomach of any kind this will help usually in 30 minutes or less.

Re: - posted by romanchog (), on: 2014/7/9 19:40

Brother:

Evidently she is having an allergic reaction again. She must find out what is causing the reaction and remove it from her presence (or remove herself from it).

I am praying for the LORD to give her wisdom in this matter, and to heal her completely and make her whole.

be heal lisa in the name jesus „pain go now „hives leave now „infection GO NOW IN JESUS NAME be heald

Re: - posted by HeartSong, on: 2014/7/10 6:05

Lisa, did you get a new piece of equipment recently?

Re: - posted by TMK (), on: 2014/7/10 6:27

Good grief Heartsong, please give it a rest.

Hope you are doing better Lysa!

Re: Prayer for Lysa - posted by Lysa (), on: 2014/7/10 15:19

I just got back from the hospital because the doctor sent me there, my face, ear and neck was swelling. I went to another hospital this time and they checked me for the flu and I have the flu! Influenza B.

When driving into the hospital parking lot, I told God, "My hope is not in this hospital but my help might be there, please let it be there." Thank God they found something underlying all the rashes, and thinking back my temperature started running last Tues or Wed but I never thought about having the flu. 12 years ago when I had the flu, I had to crawl from the bed to the bathroom, it wasn't like this at all.

Thank you Jesus I'm not going crazy!

Thank you all for praying for me, I still need prayer for these hives/whelts to go away while I take Tamiflu but praise God there is now a light at the end of the tunnel!!!

God bless you all!!!

Lisa

Re: - posted by TMK (), on: 2014/7/10 17:53

Thanks for the update! Get better real quick.

Re: - posted by HeartSong, on: 2014/7/10 21:36

Lisa, I checked on the symptoms for Influenza B and they do not match what you have described. Was the swelling on your face, neck, ear and hand on the same side of your body that you normally hold your cell phone? Have you recently gotten a new cell phone?

I am not trying to bother you, I am trying to help, as the LORD continues to prompt me to press in.

In His Love,
Laura

Re: - posted by HeartSong, on: 2014/7/10 22:37

Lisa,

Here are a few things you can do that should make a big difference in how you feel.

Do not sleep with your cell phone anywhere near your head. Keep it in a different room if possible.

If you have a router in your living quarters, you need to disable it when you are not using it. Turning it off is not good enough. You need to unplug it. Additionally, it most likely has a back up battery which needs to be permanently removed.

If you have a roaming phone, replace it with an old fashioned one. The older the better as the newer ones are loaded with circuit boards. Avoid anything with an antenna.

If you have a wireless printer, unplug it when you are not using it.

If you have a smart meter attached to your house (the meter will have digital numbers vs an analog dial) make sure your sleeping quarters are as far away from it as possible.

Actually, these are things that everyone should do as the less electromagnetic radiation that we are exposed to, the better.

I pray that the LORD would heal you from the top of your head, to the bottom of your feet.

Re: , on: 2014/7/11 5:30

Lisa

I would not be taking Tamiflu especially when you are having some sort of allergic reaction going on:

Quote:
-----Back in 2008, the FDA started reviewing reports of abnormal behavior and disturbing brain effects in more than 1,800 children who had taken Tamiflu. The symptoms included convulsions, delirium and delusions. In Japan, five deaths were reported in children under 16 as a result of such neurological or psychiatric problems. Seven adult deaths have also been attributed to Tamiflu, due to its neuropsychiatric effect.

According to a 2009 study, more than half of children taking Tamiflu experience side effects such as nausea and nightmares. Other more rare and bizarre side effects have also been reported, such as the case of a 19-year old British girl who developed toxic epidermal necrolysis and blindness after taking Tamiflu last year.

Re: - posted by TMK (), on: 2014/7/11 8:54

I guess I'll be the total oddball here and encourage you to follow Dr's orders.

Hope you are improving!

Re: - posted by MaryJane, on: 2014/7/11 8:58

Greetings Lysa

I have been praying for you as well. I to hope you are improving. Give us an update when you are feeling up to it.

God bless
maryjane

Re: - posted by HeartSong, on: 2014/7/15 3:06

Has anyone heard how Lisa is doing?

Re: - posted by HeartSong, on: 2014/7/19 16:53

Has anyone heard from Lisa yet?

Re: , on: 2014/7/19 17:57

Saints I just spoke to Lisa. She is doing very well and thanks everyone for their prayers. Lisa said she felt like she passed out of death into life.

Praise God.

Blaine
