Brothers and sisters, I felt led to share this message which I heard a few weeks ago at the church I am fellowshipping at. I believe it is a very relevant word for us today.

Brethren, I need to apologize because I did not post the message I had in mind originally. I got it mixed up with another one. I think old age might be starting to set in on me, and I'm only 38 :( However, if you listened to the first one it's all good, it was meant for you and it's also really good in my estimation :)

This is really the one I wanted to share, promise, I double checked :) It deals with the need for revival in our land.
