The Revival Hymn - posted by TMK (), on: 2014/10/10 19:15

I thought I had seen a version of the classic "Revival Hymn" compilation on here that didn't have the music.

I wanted to make another version with different music because I thought the original music made it hard to hear parts of the speaking.

Now I don't see the music-less version.

Does anybody know where a music-less version can be found?
