Deliverance - Part 1 by Derek Prince

Topic: Deliverance

Description: Derek Prince discusses the effects of overbearing mothers who control their families, testing of spirits in prophets, denying the deity of Christ and begins on entering the faith via a soulish and occultic avenue. He ties this with deliverance and truly being born again.

He also comments how he had been involved with yoga prior to being born again. This is concluded in Part 2 but the point is that the Holy Spirit would not fill him until he completely turned away from this satanic involvement.

Deliverance - Part 2 by Derek Prince

Topic: Deliverance

Description: Derek Prince addresses repenting from involvement in the occult. He examines involvement in horoscopes, fortune telling, ouija boards, palm reading, necromancy, mediums and spirit guides. He deals with a complete separation from the occult with instruction to repent and to destroy everything related to it to receive the fullness of the Holy Spirit. He states that going to and accepting the instructions of these people is the same as worship and is creating a false in your life, even if you did it as a joke. This is not a full deliverance seminar.
