

**Miracles that follow the plow :: Pray for more BioSand water filters****Pray for more BioSand water filters - posted by gospelforasia (), on: 2015/8/21 10:43**

In some villages in South Asia, people are forced to get dirty water from tepid ponds or unclean wells. BioSand water filters give families a way to remove 98 percent of impurities from water that could otherwise cause disease. Oftentimes, the blessing of BioSand water filters extends beyond one family when recipients share these filters with neighbours. Some times BioSand water filters are even installed in schools or prisons.

Please ask God to provide for more BioSand water filters so more people in Asia can experience improved health and the truth that Jesus loves them. If you would like further information and ideas to pray, please visit <http://www.gfa.ca/pray/2015/august-water/>.

And our brothers and sisters in Christ are among them.

Pray about this. If there were a way to straight up deliver these filters to our fellow believers to share as the Lord guides, it would be a no brainer.
