Last Chance to Stop Forced Vaccinations for Adults in California, on: 2015/8/29 17:37

SB792 is the FIRST vaccine mandate for adults in the US. CA Assembly Floor Vote is next Monday Aug.31. Call and write to urge a NO vote TODAY!

Currently SB792 mandates SEVEN vaccines â€ DPT, MMR and Flu â€ for ALL daycare and preschool workers, including home day care providers â€ WITHOUT personal belief exemptions as a condition of employment.

Will YOUR profession be next?

If SB792 passes the Assembly next week it goes back to the Senate for a concurrence vote on the Assembly Amendments. Go ahead and contact CA Senators as well. Donâ€™t wait! Do it now!

The original bill included the full CDC Adult Vaccine Schedule. There has been great progress during the legislative process to reduce the bill to SEVEN vaccines. Itâ€™s not really 3 vaccines. You cannot get the whopping cough vaccine or measles vaccines by themselves. You have to get the Dtap, or Tdap (3 vaccines in 1 shot), and the MMR (again, 3 vaccines in 1 shot). They are in effect mandating SEVEN vaccines. Tell your reps the TRUTH!
