

SermonIndex Support :: Why do some of the threads not come up in Mobile format?

Why do some of the threads not come up in Mobile format?, on: 2016/6/2 8:01

I am noticing that some of the threads are not coming up in nobile format. I encounter this issue on the thread I had opened up on the Mount of Transfiguration...A Shifting of Redemptive History.

What is happening is the text goes wide like it should be viewed on a desktop. But cannot be adjusted to a mobile format.

I have notice is not only on my threat but on some other threats to. Can somebody please advise?

Brother Blaine

What can we do when a thread does not come up in Mobile format?

Can somebody please advise?

Re: , on: 2016/6/2 8:05

Help!

Re: - posted by yuehan, on: 2016/6/2 8:12

Maybe that's an indication that you should give both the website and mobile phone a break ;)

Re: , on: 2016/6/2 8:12

Uh anybody got any suggestions here? Is there any way to put a thread back into a mobile setting?

Re: Yuehan, on: 2016/6/2 8:14

Hmm. Yeah you may be right bro. I think I will take my Nordic poles and go out for a walk.

But seriously I think there may be a technical issue that Greg may need to address.

But bro taking your suggestion. Turning off the smart phone for an hour or so and charging it up. Going to take my pills out and charge myself up.:)

Re: - posted by dolfan (), on: 2016/6/2 8:19

I have not seen that happen in my mobile stuff. I mean it HAS happened on occasion in the past before the update even, but it seemed to resolve when I went away and came back to it later. I chalked it up to IDK. :)

Re: , on: 2016/6/2 8:45

IDK. I don't kniw?

:)

Re: - posted by dolfan (), on: 2016/6/2 8:50

Yes. IDK = I don't know. :)

Re: , on: 2016/6/2 8:52

Me too bro. I don't know. Hopefully Greg does. :)

I will test this with a mobile device. Sometimes long links can make the desktop version also show expanded borders on the site. We will look into fixing this so it cannot happen.

Re: , on: 2016/6/2 10:33

Brother Greg all kidding aside. Should we keep the links shorter? Is it the title of the thread that may be creating the problem?

Brother Blaine

Mr. Bear, I don't know if your phone shows the little refresh arrow up in the top right part of your browser, next to where it says sermonindex.net. If you tap on that arrow "on my iPhone" it will refresh the threads.

Re: , on: 2016/6/2 10:42

Bro bill. I'm afraid I use the inferior to the iPhone and that's an Android. :-) Bro I do not have that refresh Arrow you talk about.

But thank you anyway for the suggestion.

Bro. Blaine

Re: - posted by MrBillPro (), on: 2016/6/2 10:49

I was going to send you a screen shot taken on my phone but no email in your profile. :-) I do have an android tablet let me see if I can figure it out on there.

Re: - posted by MrBillPro (), on: 2016/6/2 10:54

On my Android tablet, it shows two little refresh arrows to the left of the browser window, or the window up top where it shows the site you're on, I just call it the browser window. This site does not refresh automatically because it's not an app.

Re: , on: 2016/6/2 11:11

Bill looking to the left but do not see the refresh Arrow. Is it near the login? Or when I go to the homepage is it near the search feature?

Re: , on: 2016/6/2 11:13

Sorry bro. I simply don't see it. It may be that the version you're using what is not come my smartphone?

Re: , on: 2016/6/2 11:14

You can send me a screenshot of your tablet at pwprayercall@gmail.com. One picture is worth a thousand words. :)

Re: - posted by MrBillPro (), on: 2016/6/2 11:53

Ok sent it, I could not figure out how to take a screen shot with my Android tablet, I use my iPhone 6 for almost everything now.

Re: - posted by AbideinHim (), on: 2016/6/2 13:25

The problem that I have with posting on my phone is that the sentences get chopped up, so I have to keep them short.
