From Iran for the sake of prayer, on: 2016/7/27 1:39

I just got an email with this excerpt below from a brother in Iran who runs an underground house church network. I know Greg already posted on this, but this also adds a sense of sobriety & should act as an encouragement & motivator for intercessory prayer on their behalf:

"Also pray for us a new wave of persecution is happening. 100,000 private satellites were smashed. 20 leaders from another group were arrested. 70 from another one, which has no relationship with me but a new wave is starting!"
