K.,, a local police officer who is a good friend of mine and who has visited out home fellowship, was injured in a multiple officer confrontation in a standoff with a very large evidently mentally ill man today. He had a concussion and was examined and sent home from our local ER -- not a good ER. Got a call moments ago that K is now bleeding from his ear. His father is taking him to an ER (hopefully in a nearby town, another brother in The Lord and friend of ours talked to his dad and urged him to go there instead of to our local rural ER). Please pray for healing now for K. For wisdom in ER choice. For prompt correct complete diagnosis and healing and treatment and recovery.

Dear Heavenly Father,

Please hear our prayer for this dear friend.

Intervene on his behalf and stretch forth Your hand to heal in the Name of Jesus!

Amen

Dear Father,

We beseech You concerning our brother K, that You intervene on His behalf, Lord. This injury sounds serious, Lord, and we are concerned for his health.

Please, Lord, have mercy on our brother and his family. Please have the right medical personnel attend to him.

We rest in Your goodness towards Your own.

We ask these things in Jesus' Name, Amen.

My friend is doing better. He is still recovering but he will be ok. The bleeding from his ear last night was examined further and no deeper injury found. So we praise The Lord and hope for peace. Pray for the guy who caused all of this too. He made a very bad and sudden decision and we are thankful cool heads and even tempers prevailed. Could have easily been a national news story. As it is some lumps and bruises and concussions and a lot of broken glass.
