"Norma McCorvey, whose test case made abortions legal in the United States, has died aged 69. She was represented under a pseudonym in the Roe v Wade case, in what ended up being a landmark and controversial Supreme Court judgment in 1973. Having turned to religion, McCorvey then said being part of the decision to legalise abortion "was the biggest mistake of my life".

From BBC News.

How sad to end your life knowing and regretting you were a part of establishing such a law as this.

I believe she knew Christ. She wrote a book entitled Won by Love. I have not read the book. But others have said the book describes her journey of faith to the Lord Jesus Christ.

if she repented and received Christ as her Lord & Savior...then God does not remember any of her involvement in Roe v Wade

Blessings...rbanks
