### Old iPhones and iPad? - posted by sermonindex (), on: 2017/2/20 17:32

Brothers and Sisters,

I have been researching into ways to see a livestream work well with multiple angles and one way is to use ipads and iphones! I have some of the equipment needed such as very cheap lens and lavalier mic. Tripod to iphone connectors and a tripod. I was researching to buy some used iphones particularly iphone 4s and iphone 4. And ipad 1-4th generation.

Does anyone have extra older models like this not being used? We could use them to make this setup for the SermonIndex.net live feed:

<https://www.sermonindex.net/live/>

we would produce videos with multiple angles of various speakers who come locally or I travel to meet. We would also be doing Q and A's live on some broadcasts.

I just thought to bring this out to the community before I went ahead locally to find them used and affordable.

They could be sent to the address here: <https://www.sermonindex.net/contact.php> email me first or reply to let us know you are going to send something.

Thank you to 1 brother who has already emailed and is sending an iphone 4.

We are still looking for 2 more iphones and 1-2 ipads. thanks saints.

Thank you to another brother who is mailing an ipad. We are still looking for 2 iphone 4 or 4s. and one more ipad.

Excited to create content, interviews with multiple angles and live content!
