Saints,

Is anyone having problems viewing the SermonIndex youtube channel?

<http://www.youtube.com/sermonindex>

When I login it keeps refreshing the page and does not stop. This might be a glitch with the new layout they have just made.

It seems it just happens when I login which makes it hard to upload a message. Appreciate prayer to have this resolved dear saints.

Google are trying to censor YouTube with things such as limited mode
They have even tried to shut down sites from hosting
