The Warning of the Great Plague which has been unleashed upon this earth was posted in the May 2005 issue of The Endtime Messenger. In 2003 the report had come out that there had been an outbreak of bird flu in Vietnam that was spread by fowl. G-d spoke to Prophet Deckard at that time that there would be a plague that would scourge the world. The following year the L-rd spoke again that the afore mentioned plague would take millions of lives. The 1st week of February 2005 the L-rd spoke through a vision informing him to begin to prophecy the coming of this great plague. The L-rd also instructed him as to how the believers of this world could escape this plague and the plagues that would indeed follow. G-d always works on both ends.

It was brought to our attention over the weekend that CNN news had published a report Friday, June 24, 2005 warning of a flu pandemic which could kill half million in US it may be found at the following link:
